Index of Subjects

Adaptation, influence of on survival of schistosomula, 317
Adenylate energy charge, changes of in nematodes, 211
Amino acid absorption, in *Diclidophora merlangi*, 29
Anaerobic catabolism, alternate pathways of in *Rhabdias bufonis*, 21
Anthelmintics, effect of rafoxanide on *Fasciola hepatica* metabolism in vivo, 277
Anticoccidial drugs, development of resistance to, by *Eimeria tenella*, 177
  screening and evaluation of, 11
Antigens, detection of on schistosomula *in vivo* and *in vitro*, 317

Babesia microti, simultaneous elimination of, with *Plasmodium vinckei* from doubly infected mice, 55
Basic population model, mathematical description of, 119
Betamethasone, effect of on *Strongyloides ratti* infections in rats, 289
Birth papilla, morphology of in *Cryptocotyle lingua*, 193
Boophilus microplus, rejection of larvae of from cattle, 379
Bufo regularis, energy metabolism of *Rhabdias bufonis* in, 21

Cell-mediated cytotoxicity, antibody dependence of in *Trypanosoma cruzi*, 299
Chorio-allantoic membrane, structural studies of *Eimeria tenella* in, 185
Clopidol, activity of, against *Eimeria maxima*, 369
Coccidiosis, activity of methyl benzoquate and clopidol against *Eimeria maxima*, 369
  an embryo-adapted strain of *Eimeria tenella*, 185
  development of resistance to anticoccidial drugs, 177
  effect of vitamin K on response to anticoccidial drugs, 11
  Eimeria grenieri in the guinea fowl, 1
Cryptocotyle lingua, morphology of the redia of, 193
Culture media, development of for haemoflagellates, 309
Cytotoxic assay, development of, for *Trypanosoma cruzi*, 299

Diclidophora merlangi, amino acid absorption in, 29
Dipetalonema viteae, reduced microfilaraemia in, 61, 77
Diphyllobothrium, variation of egg size in, 229
Drug resistance, studies of in *Eimeria tenella*, 177

Egg, size and form of in *Diphyllobothrium*, 229
Eimeria grenieri, studies on, in the guinea fowl, 1
Eimeria maxima, effect of methyl benzoquate and clopidol on, 369
Eimeria tenella, an embryo-adapted strain of, 185
  development of resistance to anticoccidial drugs by, 177
  fine structural aspects of in chicken embryos, 185
Eimeria spp., effect of vitamin K on response of to anticoccidial drugs, 11
Electrophoresis, use of to study enzyme variation in *Plasmodium* spp., 241
Enzyme variation, studies of in *Plasmodium* spp., 241

Fasciola hepatica, activation of succinate dehydrogenase from, 269
  effect of host density on parasitization by, 91
  metabolic profile of in rafoxanide-treated sheep, 277
  ultrastructure of gastrodermal cell surface in, 85
Fascioliasis, factors affecting parasitization in, 91
Freeze fracture technique, use of to study outer membrane of *Schistosoma mansoni*, 327

Gametogenesis, pH control of in *Plasmodium gallinaceum*, 39
Gastrodermal cell, ultrastructure of apical surface of in *Fasciola hepatica*, 85

Genetic variation, of the response of guinea-pigs to infection by *Trichostrongylus colubriformis*, 201
Grooming, effect of on rejection of *Boophilus microplus* larvae in cattle, 379
Guinea fowl, *Eimeria grenieri* in, 1

Haemoflagellates, rapid cultivation of, 309
Heterologous immunity, existence of between piroplasms and malaria parasites, 55
Host immune response, effect of on adenylate energy in nematodes, 211
Host – parasite associations, theoretical models of, 119

Immune response, effect of betamethasone on, in *Strongyloides ratti*-infected rats, 289
involvement of in susceptibility of guinea-pigs to infection by *Trichostrongylus colubriformis* 201
Immunization, effect of worm extracts on microfilaraemia, 61
Isolation, of blood and intracellular forms of *Trypanosoma cruzi*, 159

Leishmania, rapid cultivation of in liquid media, 309
Life-cycle, of *Eimeria grenieri* in the guinea fowl, 1
Lymnaea truncatula, effect of density of, on infection by *Fasciola hepatica*, 91

Metabolism, effect of rafoxanide on, in *Fasciola hepatica in vivo*, 277
studies of in *Trypanosoma cruzi*, 159
Methyl benzoquate, activity of, against *Eimeria maxima*, 369
Microfilaraemia, factors affecting, 61, 77
Microphallus pygmaeus, ultrastructure of the daughter sporocyst of, 349
Microphallus similis, ultrastructure of the tegument of daughter sporocyst of, 359
Morphology, of the redia of *Cryptocotyle lingua*, 193

Nematodirus battus, adenylate energy charge change in, 211
Nippostrongylus brasiliensis, adenylate energy charge changes in, 211

Oestrous cycle, effects of in *Strongyloides ratti*, 221
Oxygen consumption, variations of in the sporocysts of *Microphallus pygmaeus*, 349

pH, regulation of gametogenesis in malarial parasites by, 39
Plasmodium gallinaceum, gamete development in, 39
Plasmodium spp., enzyme variation in, 241
identification of by electrophoretic enzyme analysis, 241
Plasmodium vinckei, simultaneous elimination of, with *Babesia microti* from doubly infected mice, 55
Population growth, regulation of in hosts, 119

Rafoxanide, effect of on metabolic profile of *Fasciola hepatica in vivo*, 277
Redia, morphology of in *Cryptocotyle lingua*, 193
Resistance, of British breed cattle to *Boophilus microplus*, 379
Rhabdias bufonis, respiration and carbohydrate energy metabolism of, 21

Schistosoma mansoni, early developmental changes of the schistosomula of, 317
freeze fracture study of outer membrane of, 327
Schistosomula, early developmental changes in, 317
Serum factor, effect of on microfilaraemia in infected hamsters, 77
Strongyloides ratti, immune response to in betamethasone-treated rats, 289
oestrous cycle effects in, 221
variability of in virgin female rats, 221
Succinate dehydrogenase, activation of, from *Fasciola hepatica*, 269

Taxonomic criteria, use of egg size and form measurements as, 229
Tegumental outer membrane, freeze fracture study of in *Schistosoma mansoni*, 327

Tegument, absorption of amino acids by, in *Diclidophora merlangi*, 29
ultrastructure of in *Microphallus similis*, 359
Theileria mutans, course of infection of in cattle, 99
transmission of, 99
Transmission, of *Theileria mutans*, 99
Trans-tegumental absorption, in *Diclidophora merlangi*, 29
Tricarboxylic acid cycle, regulation of in *Fasciola hepatica*, 269
Trichostrongylus colubriformis, infection of guinea-pigs by, 201
Trypanosoma cruzi, antibody dependent cell-mediated cytotoxicity of, 299
isolation of blood and intracellular forms of, 159
metabolism of blood and intracellular forms of, 159
Trypanosoma spp., rapid cultivation of in liquid media, 309

Ultrastructural studies, of eggs of *Diphyllobothrium*, 229
of *Eimeria tenella* in the chorio-allantoic membrane, 185
Ultrastructure, of the gastrodermal cell in *Fasciola hepatica*, 85
of the tegument of *Microphallus similis* sporocysts, 359
variations of in the daughter sporocyst of *Microphallus pygmaeus*, 349

Vitamin K, effects of on the response of coccidia to anticoccidial drugs, 11

Index of Subjects

Adult antigen, identification of, on the surface of juvenile *Fasciola hepatica*, 325
Aldose reductase, in the muscle of *Ascaris suum*, 97
Ancylostoma caninum, antibody binding to, xxvii
Anopheles atroparvus, development of *Plasmodium berghei berghei* in, xlvii
Anthelmintics, effects of on expulsion of pinworms in mice, xl
Antibody-mediated cytotoxicity, protective role of serum factors in, 225
Antibody, role of in adherence of phagocytic cells to *Ancylostoma caninum*, xxvii
Anticoccidial activity, of beclotiamine, 235
Anticoccidial drugs, effect of on sporulation of *Eimeria maxima*, 243
Antigenic analysis, of sequential erythrocytic stages of *Plasmodium knowlesi*, 333
Antigenic disguise, an immunofluorescent study of, xxxiii
Anti-sporozoite response, induction of by *Plasmodium berghei*, i
Apis mellifera, artificial infection of with *Nosema apis*, l
Argulus foliacens, infection strategies of in fish, iv
Ascaris lumbricoides, effect of an ovicidal fungus on the eggs of, 139
Ascaris suum, enzymes in the muscle of, 97
Association between parasite species, measurement of in multiple infections, v
Asymphylodora tincae, occurrence of a progenetic stage of, vi
Avian caecum, role of as an environment for parasites, xxii
Axenic culture, clones of *Entamoeba histolytica* from, xlv

Babesia microti, effect of on the immune response of mice to sheep erythrocytes, xliv
Babesia spp., immunization of cattle against, xliv
  non-specific immunity in infections with, xliv
Basic Model, use of to describe infection dynamics, 201
Bayer 7602, mode of action of, on *Trypanosoma cruzi*, xviii
Beclotiamine, studies on mode of action of, 235
Bilharziasis, tissue involvement in, xli
Biological models, parasites as, xli
1,7-bis (*p*-aminophenoxy) heptane, effect of on acid phosphatase activity of male *Schistosoma mansoni*, xxiv
Bisporocystic oocysts, of *Eimeria maxima* in drug-treated chicks, 243
Breed, influence of on the response of sheep to primary infections and re-infection with *Haemonchus contortus*, 161, 177
British Museum, the parasitic worms section of, xxvi
Brugia pahangi, in mice, xxxiv
  in vitro cultivation of infective and early mammalian stages of, xxi
  in vitro exsheathment of the microfilariae of, xxxiv
Brugia spp., hybridization between, 153
Bulinus senegalensis, enzymatic detection of parasites in tissues of, xxx

Caecal evacuation, effect of *Eimeria tenella* on, vii
Cellular cytotoxicity, antibody dependence of in *Plasmodium chabaudi*-infected mice, i
Centrorhynchus corvi, oocyte atresia in, 133
Cercarial propulsion, in *Transversotrema patialense*, xxi
Coccidia, of the domestic rabbit, xxiv
  suggested terminology for populations of, 27
Coccidiosis, epidemiology and transmission of in man, xix
  peripheral blood leucocyte response in, xlv
Corticosteroids, effect of, on malaria immunity in mice, ii
Cotton rat filariasis, an immunofluorescent study of the host antigen phenomenon in, xxxiii
Cotylurus erraticus, development of *in vitro*, xlvi
Crayfish, distribution of *Paragonimus kellicotti* in, 13
Crithidia spp., sequence conservation of kinetoplast DNA from, xii

Crossed immunoelectrophoresis, use of in antigenic analysis of *Plasmodium knowlesi*, 333
Cyclic AMP-binding proteins, occurrence of in *Trypanosoma brucei*, xi
Cysticercosis, immunodiagnosis of, xxviii
Cysticercus bovis, detection of circulating antigen to in infected cattle, xxix

Development, comparison of in *Diphyllobothrium* spp., 111
of *Cotylurus erraticus in vitro*, xlvi
of the schistosomulum of *Schistosoma mansoni*, during migration, 57
Digenea, evolution of, xxxi
Digenean daughter sporocysts, the tegument and host–parasite interface of, xxi
Digestive caecum, ultrastructure of in *Euzetrema knoepffleri*, 19
Dimetridazole, effect of on transmission of *Histomonas meleagridis*, 41
Dipetalonema viteae, suppression and enhancement of microfilaraemia of, xxxii
Diphyllobothrium latum, development of in various hosts, 111
Diphyllobothrium spp., study of growth patterns of, 111
Diplophallus polymorphus, variations of from avocets and stilts, xix
Dracunculoid nematodes, mechanisms of larval release in, vi

Echinococcus granulosus, chemical composition and carbohydrate metabolism of, 103
comparison of metabolism of with *E. multilocularis*, 103
passages of with sterile cysts, xlvi
Echinococcus multilocularis, chemical composition and carbohydrate metabolism of, 103
Echinococcus spp., isoelectric focusing of enzymes from, xxii
localization of hydatid fluid antigens in, 143
Eimeria flavescens, from the domestic rabbit, xxv
Eimeria maxima, bisporocystic oocysts of, in drug-treated chicks, 243
rejection of by the guinea fowl, xlv
Eimeria spp., effects of sodium chloride on sporulation of, 33
suggested terminology of, 27
Eimeria tenella, action of beclotiamine on, 235
effect of on the frequency of caecal evacuation in fowl, vii
uptake and metabolism of lower fatty acids by the oocysts of, x
Embryogenesis, ultrastructural aspects of in protocephalid cestodes, xiii
Endogenous respiration, in various forms of *Trypanosoma cruzi*, xi
Energy metabolism, *in vitro* study of in *Haemonchus contortus*, 255
Entamoeba histolytica, clones of from an exenic culture, xlv
identification of pathogenic and non-pathogenic forms of, xxx
Environment, effects of on development and hatching of the eggs of *Transversotrema patialense* iv
Eosinophils, as killer cells of schistosomula, xlviii
role of in *in vitro* damage to schistosomula, 313
Esterase isoenzyme locus, formal genetics of, l
Eupolystoma anterorchis, the egg and oncomiracidium of, 121
Euzetrema knoepffleri, digestive caecum of, 19
Evolution, of Digenea, xxxi
Exsheathment, of the microfilariae of *Brugia pahangi*, xxxiv

Faecal parasites, examination of in horses and ponies, xxiii
Fasciola hepatica, adult antigens on the juvenile tegumental surface of, xlviii
a possible immunological role for the tegument of, ix
effect of fasciolicides on motility of, xxxix
effect of on the bile duct of the albino rat, xxxv
evasion of host defences by, xlviii
host defense mechanism of *Lymnaea* against, xv
identification of soluble adult antigen on the tegumental surface of, 325
immunization of rats against, using *in vitro* culture material, xxvi
protection against, by *Cysticerus tenuicollis* infection, xlix
resistance to, in *Nippostrongylus brasiliensis*-treated rats, xlix
role of the tegument of, in osmoregulation, xviii

Fasciolicides, effects of on motility of *Fasciola hepatica*, xxxix
Fellodistomidae, spermatophores in, xxi
Field trial, immunization of cattle using irradiated *Schistosoma bovis*, 303
Filaricidal activity, comparison of different screens for, xxxix
Fish ectoparasites, infection strategies of by *Argulus foliacens*, iv
Flat worms, evolution of parasitism in, xli
Flies, prevalence of in pig houses, l
Flubendazole, anthelmintic activity of, xli
Genetic resistance, development of in sheep during infection with *Haemonchus contortus*, 161, 177
to *Trypanosoma congolense*, xxxiv
Glucose metabolism, *in vitro* study of in *Haemonchus contortus*, 255
Glycolysis in trypanosomes, effects of inhibitors of metabolism and transport on, xii
Glycoprotein, biosynthesis of in *Schistosoma mansoni*, 75
Glycosyl transferase, presence of in homogenates of adult *Schistosoma mansoni*, xviii
Gorgoderina vitelliloba, ultrastructural study of, xxi
ultrastructure of the vitelline follicles of, xxvii
Grillotia erinaceus, observations on the functional morphology of, xiii
Gynandrotaenia stammeri, an unusual cestode from the lesser flamingo, xlvi

Haematophagy, vector–host relationships in, in *Aedes aegypti*, xxv
Haemoglobin type, influence of on the response of sheep to primary infections and re-infection with *Haemonchus contortus*, 161, 177
Haemolymph composition, effects of mermithid parasitism on, in larval blackflies, 367
Haemonchus contortus, energy metabolism of, 255
genetic resistance to, 161, 177
Haemonchus spp., hosts and geographical distribution of, xxiii
Hatching, study of in *Eupolystoma anterorchis*, 121
Helminthology, the Commonwealth Institute of, xvii
Helminths, the parasitic worms section of the British Museum, xxvi
Heterakis gallinarum, transmission of *Histomonas meleagridis* by, 41
Histochemistry, of oocytes of *Centrorhynchus corvi*, during atresia, 133
Histomonas meleagridis, effect of dimetridazole on transmission of, 41
Histopathological effects, of *Zygocotyle lunata* in the domestic chick, 49
Host immune reaction, evasion of by surface-active material from pentastomatids, xxix
reversible effects of on *Trichinella spiralis* in mice, x
Host–parasite relationships, of *Zygocotyle lunata*, 49
Human head lice, susceptibility of to insecticides, vii
Hyalomma detritum, development of infectivity in, during infection with *Theileria annulata*, 375
transmission of *Theileria annulata* by, 375
Hybridization, between *Brugia* spp., 153
Hydatid fluid antigens, localization of in *Echinococcus granulosus* and *E. multilocularis*, 143
Hydrotaea irritans, the sheep headfly, xxii
Hymenolepis diminuta, effect of the expulsion phase of *Trichinella spiralis* on, x
infections of in rats and mice, xxv
metabolite levels in the cysticercoids of, xxiv
roles of the scolex and strobila in the immune response of mice to, xxv
Hymenolepis microstoma, effect of concurrent infection with *Trichinella spiralis* on, 273
non-specific rejection of from mice, 273
Hymenolepis nana, in thymus-deficient mice, xxvii
Hypoderaeum sp.nov., life-history of, xxiii
morphology of, xiv

Immune capacity, study of in gerbils, iii
Immune expulsion, of *Trichinella spiralis* from mouse intestine, ix
Immune mechanisms, ultrastructural evidence of in eosinophil-mediated damage to schistosomula, 313
Immune response, effect of *Babesia microti* on, xliv
effect of on *Strongyloides ratti* in rats, xlvii

Immunity, effect of pregnancy on in the *Plasmodium berghei*–mouse model, ii
Immunization, against the microfilariae of *Litomosoides carinii*, xxxii
of calves, against *Schistosoma bovis*, 303
Immunocytochemical localization, of hydatid fluid antigens in *Echinococcus* spp., 143
Immunodiagnosis, use of immunoprecipitation patterns in bovine cysticercosis, xxviii
use of schistosomal enzymes as antigens in, xxviii
Infection dynamics, a Basic Model for the description of, 201
experimental studies of, with *Transversotrema patialense*, 189
Inflammatory response, involvement of in rejection of *Trichinella spiralis* from *Hymenolepis microstoma*-infected mice, 273
Intertaxic crosses, use of to differentiate *Brugia* spp., 153
Irradiated piroplasms, use of in immunization of cattle against *Babesia* spp.
Island faunas, study of in Arctic char, xix
Isospora ohioensis, endogenous stages in the dog, 1
life-cycle of, 1
Ixodes ricinus (L.), studies on the seasonal activity of, xxii

K cells, activity of in *Plasmodium chabaudi*-infected mice, i
Kinetoplast DNA, sequence conservation of in *Crithidia* spp., xii

Lactation period number, significance of for the spring rise phenomenon, xvii
Leishmaniasis, in the state of Kuwait, xx
Lerbek, resistance of *Eimeria maxima* to, 243
Leucochloridiidae, site selection of in the chick, xlii
Leucocyte migration, inhibition of by a nematode antigen, in an Elasmobranch fish, xxix
Life-cycle, of *Isospora ohioensis* in dogs, 1
of *Sarcocystis cuniculi* in the European rabbit, xlii
Ligula intestinalis, inhibition of host reproduction by, xxiii
intermediary metabolism of, xxiii
Lipid composition, comparison of, between male and female *Schistosoma matheei*, xxiv
Litomosoides carinii, constitution of patency in, xxxiii
immunization against the microfilariae of, xxxii
Localization, of hydatid fluid antigens in *Echinococcus granulosus* and *E. multilocularis*, 143
Lymnaea spp., defense mechanism of, against *Fasciola hepatica*, xv
Lymnaea stagnalis, development of gonad of, during infection with *Trichobilharzia ocellata*, xxi
Lysosomal enzymes, involvement of in digestion in *Euzetrema knoepffleri*, 19

Mannosyl transferase, activity of in homogenates of *Schistosoma mansoni*, 75
Mermithid parasitism, effects of on the haemolymph composition of larval blackflies, 367
Metabolism, comparison of in *Echinococcus* spp., 103
of lower fatty acids in *Eimeria tenella*, x
of purine and pyrimidine in *Trichomonas vaginalis*, xi
Metabolites, levels of, in the cysticercoids of *Hymenolepis diminuta*, xxiv
Metacercariae, population biology of in *Paragonimus kellicotti*, 13
Metronidazole, development of resistance to in trichomonads, xxiii
Microfilaraemia, suppression and enhancement of, in hamsters and mice, xxxii
Microphallus similis, the forebody gland cells of, xiv
Migration, of schistosomula of *Schistosoma mansoni*, 281
Milk transmission, study of patterns of in *Strongyloides ratti*, 87
Monogeneans, egg production and respiration of, xviii
Morphology, comparison of in *Trypanosoma* spp., 249
functional aspects of in the plerocercoid of *Grillotia erinaceus*, xiii
of *Hypoderaeum* sp.nov., xiv
of oocytes of *Centrorhynchus corvi*, during atresia, 133
of the bile duct of the albino rat during infection with *Fasciola hepatica*, xxxv
Mosquito fish, effect of thermal effluents on the parasite population dynamics of, iv
Mus musculus, *Trypanosoma* (*Schizotrypanum*) *assiutis* sp.nov. in, 249

Nematode antigens, effect of on leukocyte migration, xxix
Nematode egg output, post-parturient rise in, in cattle, xvii
Nematode expulsion, effect of anthelmintics on in mice, xl
Nematodes, arrested development of in sheep in Iran, xviii
ecological studies of in a wild mouse population, v
proteolytic enzymes in, xviii
unusual sexual behaviour of, xlv
Nematospiroides dubius, effect of on the immune expulsion of *Trichinella spiralis*, viii
transfer of resistance to, with homologous antiserum, viii
Nereis diversicolor, role of as second intermediate host for *Himasthla militaris*, xliii
Nippostrongylus brasiliensis, antigens and histopathology of in the rat, xxvii
effect of on the structure of the intestine in rats, xxxv
induction of resistance to *Fasciola hepatica* by in rats, xlix
in malnourished rats, xxxv
Nomenclature, for the invasive stages of Sporozoa (Apicomplexa), vii
for the tissue stage-forming disporic, tetrazoic coccidia, xxxi
Nosema apis, possible particles of in pollen, l
Notocotylus triserialis, anatomy of the ventral papillae of, xx

Onchocerca microfilariae, optimal conditions for recovery of viable forms of, xxi
Onchocerciasis, new methods for the collecting and rearing of vectors of, l
relationship of the consitution of patency to, in filariasis, xxxiii
Oncomiracidia, description of in *Eupolystoma anterorchis*, 121
Oocysts, effects of sodium chloride on sporulation of in *Eimeria* spp., 33
Oocyte atresia, study of in *Centrorhynchus corvi*, 133
Osmoregulation, role of the tegument in, in *Fasciola hepatica*, xviii
Ostertagia circumcinta, inhibition and/or retardation in, xvii
Over-dispersion, effects of on infection dynamics in *Transversotrema patialense*, 189
Ovicidal fungus, effects of, on the eggs of *Ascaris lumbricoides*, 139
Oviposition, study of in *Eupolystoma anterorchis*, 121
Ovoviviparity, role of in the transmission of polystomatid monogeneans, v

Paragonimus kellicotti, population biology of the metacercariae of, 13
Pentastomida, phylogenetic relationships of, xxii
Pentastomids, surface-active material from, xxix
Plagiorchis elegans, aspects of the biology of, xlii
Plasmodium berghei berghei (ANKA), development of in *Anopheles atroparvus* van Thiel, xlvii
Plasmodium berghei, effect of corticosteroids on immunity to, ii
infection of reticulocytes by, causes agglutination, iii
ionic changes in rat liver during infection by, xxxvi
isolation and ribonucleic acid analysis of ribosomes of, 345
specificity of anti-sporozoite response induced by, i
Plasmodium berghei – mouse model, pregnancy and immunity in, ii
Plasmodium knowlesi, antigenic analysis of sequential erythrocytic stages of, 333
Plasmodium spp., non-specific immunity in infections with, xliv
Platyhelminths, scanning electron microscopy of, xx
Polystomatid monogeneans, role of ovoviviparity in the transmission of, v
Population biology, of the metacercariae of *Paragonimus kellicotti*, 13
Population dynamics, analysis of by measurement of the association between parasite species, v
effect of thermal effluents on, in parasites of the mosquito fish, iv
of snail infection by miracidia, 201
of *Trichostrongylus* spp. in sheep, xvi
Praziquantel, mechanism of action of, xl
Prosimulium mixtum/fuscum, haemolymph composition of during mermithid parasitization, 367
Protein malnourishment, effect of on infection of rats with *Nippostrongylus brasiliensis*, xxxv

Proteolytic enzymes, presence of in *Nippostrongylus brasiliensis* and *Nematodirus battus*, xviii
Protocephalid cestodes, electron microscope studies of spermatogenesis and fertilization in, xxi
ultrastructural aspects of embryogenesis in, xiii

Reticulocyte agglutination, importance of in rodent malaria, iii
Ribonucleic acids, analysis of in ribosomes isolated from *Plasmodium berghei*, 345
Ribosomes, isolation and ribonucleic acid analysis of in *Plasmodium berghei*, 345

Sarocystis cuniculi, life-cycle of in the European rabbit, xlii
Schistosoma bovis, immunization of calves against, 303
naturally acquired resistance to in Sudanese cattle, xvi
Schistosoma mansoni, acid phosphatase activity in, after treatment with 1,7-bis (*p*-amino-phenoxy) heptane, xxiv
activity and development of the schistosomulum of, 57
eosinophil-mediated damage to, *in vitro*, 313
isolation of tegument membranes from, xlviii
mannosyl transferase activity in homogenates of, 75
mechanism of action of praziquantel on, xl
migration of schistosomula of, 281
presence of glycosyl transferases in homogenates of, xviii
role of serum factors in protection of, against cytotoxic antibody, 225
ultrastructural studies on the gut of, xv
use of [^{75}Se] methionine to study migration in, xliii
Schistosoma mattheei, lipid composition comparison between male and female of, xxiv
Schistosomes, activity of, measured by ultrasound, xxvi
damage to, by immune serum *in vitro*, xlvii
Schistosomiasis, use of schistosomal enzymes in immunodiagnostical tests for, xxviii
Schistosomula, activity and development of during migration, 57
migration of in the mammalian host, 281
protection of in cytotoxic assay, 225
Schistosomula migration, use of [^{75}Se] methionine for the study of, xliii
Serum factors, role of in protection against antibody-mediated cytotoxicity, 225
Simulium venustum, haemolymph composition of during mermithid parasitization, 367
Small intestine, effect of *Trichinella spiralis* infection on, xxxvi
Sodium chloride, effects of saturated solutions of, on coccidial oocysts, 33
Sorbitol dehydrogenase, in the muscle of *Ascaris suum*, 97
Spermatogenesis, in trichuroid nematodes, xv
Spermatophores, in the Fellodistomidae, xxi
Spicules, function of in nematodes, xlv
Sporozoa (Apicomplexa), nomenclature for the infective stages of, vii
Sporulation, effects of sodium chloride on, in *Eimeria* spp., 33
Spring rise phenomenon, the significance of the lactation period number in, xvii
Strongyloides ratti, effect of the immune response of rats on, xlvii
patterns of milk transmission in, 87
Suppressor cells, relevance of in trypanosome infection, xxxix
Surface antigen, identification of, on the tegumental surface of *Fasciola hepatica*, 325

Taenia crassiceps, infection of inbred rats with, xxxv
Taxonomy, of the tissue stage-forming disporic, tetrazoic coccidia, xxxi
Tegumental adult antigen, detection of on juvenile *Fasciola hepatica*, 325
Tegument antigenicity, immunological role of in *Fasciola hepatica*, ix
Tegument membranes, isolation of from *Schistosoma mansoni*, xlviii
Tegument, ultrastructure of in Turbellaria and Cestoda, xxx
Terminology, for populations of coccidia, 27
Theileria annulata, effect of on the development of infectivity in ticks, 375
transmission of by *Hyalomma detritum* ticks, 375
Threonine analogues, use of as trypanocides, xiii

Ticks, cutaneous and blood basophil responses to, l
Toxocara canis, diagnosis of in humans, xix
incidence of in dogs, faeces and soils, xix
Transfer of immunity to *Nematospiroides dubius* using homologous antiserum, viii
Transmission, of *Histomonas meleagridis*, effect of dimetridazole on, 41
Transversotrema patialense, a quantitative analysis of the development and hatching of the eggs of, iv
cercarial propulsion in, xxi
studies of infection dynamics in, 189
Trichinella spiralis, effect of flubendazole on, xli
effect of on concurrent *Hymenolepis microstoma* infection in mice, 273
effect of on immune depression, x
effect of the expulsion phase of, on *Hymenolepis diminuta*, x
factors involved in the expulsion of from mouse intestine, ix
immune expulsion of by *Nematospiroides dubius*, viii
immunopathological studies of in normal and athymic mice, xxv
mucous production in infections caused by, xxv
response of the small intestine to infection by, xxxvi
reversible effects of the host immune reaction on, in mice, x
site selection behaviour of, xliii
Trichomonads, mechanism of resistance to metronidazole in, xxiii
Trichomonas vaginalis, purine and pyrimidine metabolism in, xi
Trichostrongylus spp., population dynamics of in sheep, xvi
Trichostrongylus vitrinus, pathogenicity of in sheep, xxv
Trichuroid nematodes, spermatogenesis in, xv
Trypanocides, use of threonine analogues as, xiii
Trypanosoma brucei, acetate precursors and lipid synthesis in, xxii
antibody-mediated control of, in mice, xxxvii
common peptides in the C-terminal regions of antigens of, xxxvii
effects of inhibitors of metabolism and transport on glycolysis in, xii
immunodepression of, in mice, xxxvii
specific cyclic AMP-binding proteins of, xi
Trypanosoma brucei brucei, variant-specific surface antigens of, xxxvii
Trypanosoma congolense, genetic resistance to, xxxiv
Trypanosoma cruzi, energy sources of, xi
lysis of by eosinophils and neutrophils, xxv
mode of action of Bayer 7602 on, xviii
Trypanosoma cruzi-like trypanosomes, study of in the house mouse, 249
Trypanosoma (*Schizotrypanum*) *assiutis*, a new species, 249
Trypanosoma (*Schizotrypanum*) *diouisii*, *in vitro* survival of in macrophages, xxv
Trypanotolerance, in mice, xxxviii
use of [^{75}Se] methionine-labelled *Trypanosoma congolense* in studies of, xxxviii
Trypanozoon, isoenzyme characterization of, xxx

Ultrastructure, of immune, eosinophil-mediated damage to schistosomula, 313
of the digestive caecum of *Euzetrema knoepffleri*, 19
of the gut of *Schistosoma mansoni*, xv
of Turbellaria and Cestoda tegument, xxx

Variant-specific surface antigens, common peptides in the C-terminal regions of, xxxvii
of *Trypanosoma brucei brucei*, xxxvii
Verticillium chlamydosporium, effect of, on the eggs of *Ascaris lumbricoides*, 139
Vitelline follicles, ultrastructure of in *Gorgoderina vitelliloba*, xxvii

Xenomyia exycera, a dipteran predator of *Simulium damnosum*, l

Zygocotyle lunata, host–parasite relationships of, 49

PARASITOLOGY

PARASITOLOGY

(Founded by G. H. F. Nuttall, F.R.S.)

EDITORS

D. W. T. CROMPTON *and* B. A. NEWTON

PART 1 AUGUST 1978

PAGE

DUBEY, J. P. Life-cycle of *Isopora ohioensis* in dogs 1

STROMBERG, P. C., TOUSSANT, M. J. and DUBEY, J. P. Population biology of *Paragonimus kellicotti* metacercariae in central Ohio 13

FOURNIER, ANNIE. *Euzetrema knoepffleri*: evidence for a synchronous cycle of the gastrodermal activity and an 'apocrine-like' release of the residues of digestion 19

JOYNER, L. P., CANNING, ELIZABETH U., LONG, P. L., ROLLINSON, D. and WILLIAMS, R. B. A suggested terminology for populations of coccidia (Eimeriorina), particularly of the genus *Eimeria* (Protozoa: Apicomplexa) 27

RYLEY, NICHOLAS G. and RYLEY, JOHN F. Effects of saturated sodium chloride solution on coccidial oocysts 33

CHUTE, M. B., CHUTE, ANNE M. and WILKINS, G. C. Effect of dimetridazole on transmission of *Histomonas meleagridis* by *Heterakis gallinarum* . . 41

FRIED, B. and NELSON, P. D. Host-parasite relationships of *Zygocotyle lunata* (Trematoda) in the domestic chick 49

WILSON, R. A., DRASKAU, TOVE, MILLER, PATRICIA and LAWSON, J. RUTH. *Schistosoma mansoni*: the activity and development of the schistosomulum during migration from the skin to the hepatic portal system . 57

RUMJANEK, F. D. and SMITHERS, S. R. Mannosyl transferase activity in homogenates of adult *Schistosoma mansoni* 75

WILSON, P. A. G., CAMERON, MAUREEN and SCOTT, D. S. Patterns of milk transmission of *Strongyloides ratti* 87

GOIL, M. M. and HARPUR, R. P. Aldose reductase and sorbitol dehydrogenase in the muscle of *Ascaris suum* (Nematoda) 97

MCMANUS, D. P. and SMYTH, J. D. Differences in the chemical composition and carbohydrate metabolism of *Echinococcus granulosus* (horse and sheep strains) and *E. multilocularis* 103

ANDERSEN, KARIN. The development of the tapeworm *Diphyllobothrium latum* (L. 1756) (Cestoda: Pseudophyllidea) in its definitive hosts, with special references to the growth patterns of *D. dendriticum* (Nitzsch, 1824) and *D. ditremum* (Creplin, 1827) 111

PART 2 OCTOBER 1978

PAGE

TINSLEY, R. C. Oviposition, hatching and the oncomiracidium of *Eupolystoma anterorchis* (Monogenoidea) 121

PARSHAD, V. R. and GURAYA, S. S. Morphological and histochemical observations on oocyte atresia in *Centrorhynchus corvi* (Acanthocephala) . 133

LÝSEK, H. A scanning electron microscope study of the effect of an ovicidal fungus on the eggs of *Ascaris lumbricoides* 139

DAVIES, CAROLINE, RICKARD, M. D., BOUT, D. T. and SMYTH, J. D. Ultrastructural immunocytochemical localization of two hydatid fluid antigens (antigen 5 and antigen B) in the brood capsules and protoscoleces of ovine and equine *Echinococcus granulosus* and *E. multilocularis* 143

SUSWILLO, R. R., DENHAM, D. A., MCGREEVY, P. B. and NELSON, G. S. Hybridization between *Brugia patei*, *B. pahangi* and sub-periodic *B. malayi* 153

ALTAIF, K. I. and DARGIE, J. D. Genetic resistance to helminths. The influence of breed and haemoglobin type on the response of sheep to primary infections with *Haemonchus contortus* 161

ALTAIF, K. I. and DARGIE, J. D. Genetic resistance to helminths. The influence of breed and haemoglobin type on the response of sheep to re-infection with *Haemonchus contortus* 177

ANDERSON, R. M., WHITFIELD, P. J. and DOBSON, A. P. Experimental studies of infection dynamics: infection of the definitive host by the cercariae of *Transversotrema patialense* 189

ANDERSON, R. M. Population dynamics of snail infection by miracidia . 201

TAVARES, C. A. P., SOARES, RITA C., COELHO, P. M. Z. and GAZZINELLI, G. *Schistosoma mansoni*: evidence for a role of serum factors in protecting artificially transformed schistosomula against antibody-mediated killing *in vitro* 225

MATSUZAWA, TOSHIAKI. Studies on the mode of action of beclotiamine on *Eimeria tenella* 235

PART 3 DECEMBER 1978

NORTON, C. C. and JOYNER, L. P. The appearance of bisporocystic oocysts of *Eimeria maxima* in drug-treated chicks 243

FAHMY, M. A. M., ABEDL-RAHMAN, A. M. and KHALIFA, R. *Trypanosoma* (*Schizotrypanum*) *assiutis* sp.nov. from the house mouse *Mus musculus*, with a comparative study on *Trypanosoma* (*Schizotrypanum*) *vespertilionis* of the Egyptian bat *Vesperugo kuhli* 249
